Beauty Walls®

3D Decorative Wall Panels

Dear friends,
Welcome to the world of modern design of walls !

BeautyWalls is a European company, specializing in the design and manufacture of decorative finishing materials.

We offers an exclusive collection of decorative 3D Plaster Wall Panels for commercial, residential and public spaces such as flats, houses, shopping malls, shops, hotels, offices, cinemas, restaurants, airport lounge, and many more.

The original design of textured plaster panels makes any interior so cozy, modern and luxurious. This will not only impress but also increase the price of the owner's property.

"Light Gypsum" is an innovative BeautyWalls technology, that produces products. The panels are 40% lighter and stronger, meaning their transportation cheaper and operation more reliable. Panels are with additional of soundproofing and heat-insulating properties.

Gypsum is ecologically natural material, that self-regulates the humidity in the room. Gypsum panels absorb excessive humidity, but if lacking it, they give it back.

Thus, the walls "breathe in & out", maintaining the optimal microclimate in the room, which is beneficial to health.

3D Plaster Wall Panels are easy to mount and paint in any color following the installation instruction.

At this moment BeautyWalls expands trading network and is looking for new partners: distributors, wholesalers and retailers within Africa, Asia, Australia / Oceania, Europe, North America and South America.
